Tetra Pak & crisp tubes

Coffee cups

Food & drink cartons

Cartons (Fibre-based composite packaging which is made of paperboard or paper fibres, laminated with low density plastic). Includes: cartons; paper drinks cups with a low density plastic layer and rigid paper containers (for example stackable potato crisp tubes). Not: paper cups with a compostable, biodegradable inner waterproof plastic layer.

Metal Includes: Aluminium foil; aluminium food trays; aluminium tubes; steel and aluminium aerosols; steel and aluminium jar and bottle lids and caps; steel and aluminium tins and cans. Not: metal coffee pods; paint cans (including aerosol spray paint cans); gas canisters; scrap metal (including cutlery, and pots and pans)

Plastic (PET, PP, LDPE, HDPE not PS) Includes: Plastic packaging comprising pots, tubs, trays, rigid and semi-rigid lids and clear cups; plastic bottles, pumps and triggers; plastic packaging tubes except: where they are less than 50x50mm; where they have contained products used in construction works; where they have a metal layer, or where they are multi-monomer plastic. Not: Plastics containing carbon black pigment; bubble wrap; bulk bags for the delivery of sand, gravel, seed, feed etc; compostable or degradable packaging; crisp packets; plastic bags (including carrier bags, bread bags, frozen food bags, compost bags, fertiliser bags, feed bags); plastic coffee pods; plastic film (including cling film, food tray film, pallet wrap, shrink wrap, silage wrap, crop cover); plastic paint cans; polystyrene, including drinks cup lids, and expandable foam packaging; pouches (including for pet food and liquid detergent); rigid non-packaging hard plastics (including toys, coat hangers, plant pots); sachets; sweet and biscuit wrappers.
